

OPTIONAL PROGRAM FEATURES

When you select the Deluxe Points Program with Awards Network, you can choose as many of our fun engagement features as you'd like! Check them out below:

Peer-to-Peer Recognition

Allow your employees to reward one another for great work. Add the **Recognition Wall** feature so everyone can see & celebrate nominations given company wide.

Manager-to-Employee Recognition

Encourage your leadership team to reward their employees for outstanding contributions, goals, and performance.

Submission Forms

Have employees bring new ideas to the table to enhance your business. This feature can also be used to collect input from your employees, using a survey or feedback method.

Quizzes

Do you have new policies or procedures your employees need to know? Create quizzes and reward employees for passing mandatory requirements.

On-The-Spot Cards

Award employees in person with cards that have a designated point value assigned to them. The points will instantly post once the employee enters the card's code online.

Resources

Build a library of company newsletters, training videos or any documents you want accessible to employees.

Spotlight

Showcase top point earners in a leaderboard format, to ignite some friendly competition. Employee birthdays and anniversaries can be highlighted as well.

Mentions

Any employee will be able to send these engaging, fun e-cards privately to one another via email.

EXPERT TIP: Mix and match features that will best pair with your organization's goals!

If you want to use quizzes, try adding a resource center with study materials. If you have a Spotlight, use Mentions to allow employees to congratulate one another. Encourage managers to give out On-The-Spot cards to reward employees for bright ideas or feedback submitted.
